Political Conventions

Liberals and Farmers Select Candidates

**P. Baker and Dr. Campbell
are Chosen**

The Ponoka C.F.A. held a con-
vention in the Empress Theatre on
Saturday evening in order to select
a candidate to contest the Ponoka
riding at the forthcoming election.

Notwithstanding somewhat un-
favourable weather, the theatre was
filled to capacity with farmers and
their lady friends, C. C. Reid
presided, while G. N. Field acted
as secretary.

The usual time was completed,
in choosing committees, etc. The
credential committee reported that
over fifty delegates were present,
and that a number were held up
on the road through car trouble
and bad roads.

Several names were proposed and
discussed, but these voted upon
were—Frank James, C. O. Con-
ingham, W. J. Hoar, P. Baker
and Ben. Fink. On a ballot be-
ing taken it was found that P.
Baker had a majority of the votes
cast over all others, and was duly
declared to be the farmers' stand-
bearer in the contest.

Other matters, such as a per-
manent organization, was taken up
at the meeting, when C. C. Reid
was made president and G. N.
Field, secretary, with the agree-
ment of each local acting on the
executive.

At the Liberal convention, held
in the Bow Hall on Monday after-
noon, Dr. W. A. Campbell was
chosen to contest the Ponoka seat.

There was a large attendance,
and P. W. H. (Hudson) was sec-
retary. Those present to remain
were J. C. Bell, L. E. Young, and
Dr. Campbell. The doctor having
53 ballots in his favour was de-
clared elected amid enthusiasm.

The doctor, in returning thanks,
made a long speech, stating that he
would do everything in his power
to win the riding for the Liberal
party.

Fergus Falls, Minn., July 1.—
The government thermometer here
registered 104 in the shade here
Thursday, the highest in many
years. Reports of farmers plow-
ing their grain under are coming
from the more sandy sections.

Appointment of former Presi-
dent W. H. Taft as chief justice of
the United States was formally
announced at the White House on
Thursday.

HON. GEO. P. SMITH
Minister of Education, will address a
meeting in Dr. Campbell's in-
staura on Saturday, July 24th, at 3 p.m.
For Liberal Committee Room,
Phone 17.

Climax

Mrs. G. L. Reed is visiting her
brother and family in Bentley.
A delightful rain visited this
section Saturday and Sunday. Al-
though the drought did consider-
able damage the farmers are greatly
encouraged.

The first of July was celebrated
quietly in Climax. Everybody
seems to be waiting to celebrate the
Aster picnic on the 7th.

Little Orlin Reese strayed away
from her home before supper Fri-
day evening. After a thorough
search by the parents was given
in vain the alarm was sent out over
the phone, and soon a large crowd
gathered. About 10:30 G. G.
Davies had been away at a picnic,
returned and found her asleep at
his house.

The farmers are doing a large
amount of breaking in this vicinity
this year, and are already laying
plans for a bumper wheat crop
another year.

Alberta

A Justifiable Postponement

The Directors of the Western Canada Colonization Association are to be commended for their action in postponing the actual work of bringing in settlers until they secure from the prairie provinces a reasonably firm price list of unsecured lands available for sale. The Association will not be warranted in expending the large sum of money subscribed by its backers until it secures reasonable co-operation from the three Governments. Saskatchewan and Alberta Legislatures should prevent the use of this great fund for the general advantage of the Canadian West.

We look to see the forthcoming conference of prairie provinces Premiers agree upon some workable basis of action that will facilitate the operations of the Western Canada Colonization Association, as of other immigration agencies. The summer the twenty million acres of idle land near the rail ways, now held out of production by more than eighty thousand individual operators, is brought under the plow, the summer will good times return, the burden of taxation be lightened and the National Railways achieve self-sustaining basis.

Remarkable Trlp In Overland Car

Overland tours of 75,000 miles are not common among Canadian auto mobile owners but was completed this month that such a territory from coast to coast, north as far as Edmonton, south as far as Lower California.

M. J. T. Peas, who is in business in Toronto for many years, and who took the trip chiefly for the health of his wife and who was accompanied by his son, Mr. James, after preliminary arrangements through Montreal and the Automobile Club of the Atlantic, they commenced their long trip by way of Chicago and St. Louis and then north again to Winnipeg. Crossing the Rockies through the Crown New Pass, they visited Vancouver and proceeded to Los Angeles.

During the trip, they saw many things that they had never seen before. They were always able to obtain gasoline and other necessities in the most remote places. They also saw many beautiful sights, including the Grand Canyon and the Rocky Mountains.

Germany's Oldest

Bell Broken

Was Cast In 1471 and Weighed Eight Thousand Pounds.

Berlin has just learned that the largest bell in the cathedral was broken, while waiting for the funeral of Kaiserin Augusta Victoria, and that having broken down in the middle of the funeral service, it will never be heard again. The bell had been one of the most beautiful tones of any bell in all Germany. It was cast in 1471 and weighed 8,000 pounds. It is six feet in diameter. It was placed in the tower of the cathedral, which was used by the Emperor, near the royal palace in Berlin. It was installed in the present cathedral when that structure was completed several years ago.

Canada Leads In Choice

Canada leads in popularity among the applicants in the British Isles for free passages under the scheme of state-aided emigration for ex-servicemen and women. Of the applications received up to the end of last year, totaling 84,000, the largest in individual form was 2,675, who desired to make their homes in Canada. Australia came next with 23,567.

C.B.R. Coal Dock Destroyed

Fire of unknown origin destroyed one of the leading towers at the Canadian National Railway coal dock, Port Arthur. The loss is estimated at \$150,000. The tower, John B. Sherman, owned by the Inter-Lake Steamship Company, was tied up at the dock, but was moved out before any damage was done.

Decorated With Legion of Honor

Presentation to Captain Hargreaves Was Complete Surprise

A dramatic incident took place at the war office when Marshal Foch decorated Field-Marshal Sir Henry Wilson and some other British generals with the Legion of Honor, the Field-Marshal receiving the Grand Cordon of the Order.

After these presentations had been made, Marshal Foch unexpectedly, in a loud voice, said, "Captain Hargreaves." The captain stepped forward, whereupon Marshal Foch continued, "In the name of the President of the French Republic, I hand you the Legion of Honor." This came as a complete surprise to all the British present, and everyone was gratified.

Captain Hargreaves is Sir Henry Wilson's military secretary—a charming young soldier of the best type, who is loved by the French. In the war he was severely wounded and has only one leg, a hand and a half, and a hole in his side. For twelve hours he lay out in No Man's Land, being cared for by German soldiers.

The addition of merit of his life was when, after crawling to a dead man's water bottle, and drinking what remained of it, he was able to get up and walk to the rear of the line.

Cuticura Speeds shampoo pressed by touches of Cuticura to the scalp, and the hair grows thick and healthy. Cuticura is a complete hair restorer.

Farthest North Bank

Union Bank Will Open a Branch at Fort Smith, in Latitude 54 Degrees North

Carrying bank accommodation for the first time into the northernmost district, the Union Bank of Canada will open a branch at Fort Smith, in latitude 54 degrees north, not to be exceeded, that the Fort Smith branch of the Union Bank has become a profitable venture, particularly in its initial stages.

Will Direct Traffic to Canada

The drastic immigration restrictions which have recently come into effect in the United States will, it is thought, have a natural sequence in the direction of the superfluous flow to Canada. Authorities are also of the opinion that the rapid extension of the act will result in the transferring of some of the vessels of the New York-Louisville fleet to the port of Montreal.

THIN, WATERY BLOOD MEANS ILL HEALTH

Rich, Red Blood Brings Bright Eyes and Rosy Cheeks

The girl who returns home from school or from work thoroughly tired out will find that her blood is thin and watery. This is a sign of ill health. This is a sign of ill health. This is a sign of ill health.

Ulster's Large Population

Has As Many People As Alberta, Saskatchewan and British Columbia

Those who suggest, "the North-East Ulster," that North-East Ulster is an abundant small province, have selected a wrong area. The North-East Ulster, the county of Antrim, has a population of 225,000. It is as large as the province of New Brunswick.

How Camphor Is Procured

Process of Extracting It From Wood, Shing and Insects

Try Frozen Desserts

BY LORETTO C. LYNCH An Acknowledged Expert in All Matters Pertaining to Household Management

As the warmer days come, the frozen desserts should find place upon the family table. Why don't women make them more often than they do? Simply because they believe that to make a freezer full of frozen strawberries is much more trouble than to make a lemon pie. But it is not.

The freezer on the market are simple of construction and easily made. The first few weeks of their use. A freezer making as little as a pint, may be obtained in the shape of a pint gives two or three portions.

For general use, one-third as much salt as ice is used. The salt must be the coarse salt sold for this special purpose. The ice should be placed in a stout canvas bag and crushed with a mallet until quite fine. Large sharp pieces of ice have been known to pierce the tin containing the material to be frozen.

A freezer should never be filled more than three-fourths full, for any mixture expands in freezing. A few recipes. A first-class cold fruit needs very few recipes. For instance, if you remember that a frozen dessert never tastes as sweet as it really is, you will find it easy to taste the mixture before it is frozen that it must taste unusually sweet to be "just right" when it is frozen. The simplest fruit dessert is lemon pie. To make this, prepare an unusually sweet lemonade. A little of the grated rind intensifies the flavor of the lemonade. Freeze and serve.

For orange pie, prepare a very sweet orange juice, add a little orange rind, as well as part lemon juice. In fact, most every fruit ice contains part lemon juice. This prevents an otherwise insipid taste.

Frozen berries are prepared by adding one-half as much sugar and sweetened berries as you have sweet lemons.

In freezing any ice it is not necessary to turn the handle continuously. Turn now and then, it is sufficient. When the handle begins to turn "hard," carefully remove the top of the can to prevent salty water from dripping and spoiling the contents. Allow the freezer to remain undisturbed for an hour or longer before serving, if convenient.

Get Together Results

Benefit Derived From the Accredited Herd Plan for Control of Tuberculosis

A few years ago the United States breeders of pure-bred cattle, recognizing the necessity of more effective measures for the control of tuberculosis, arranged a conference with officials of the Bureau of Animal Industry at Washington, the result of which was the adoption of what is known as the Accredited Herd Plan, meaning that the herd had been thoroughly tested and found free from tuberculosis. The plan proved so successful (over a thousand herds have been accredited in the last few years) that a decision was arrived at to adopt the system in Canada. Regulations were promulgated which came into force in September, 1912, and have proved gratifyingly successful, a number of herds having been accredited while many others are under test. A list is now an agreement between Canada and the United States that cattle from accredited herds may enter either way, without detention or test.

Manitoba Farmer Now So Strong He Can Put In Full Time at Work

"I was beginning to think I never would be myself again but Tanlac has put me back in as good health as I ever enjoyed in my life," said John Brown, well-known farmer of Saint Clair, Manitoba.

"I had a bad stomach and it had been troubling me for the past two and a half years. My appetite was fairly good; that is, I could eat but it looked like everything turned against me and brought on indigestion. Gas formed and would blow me up something awful. I slept poorly, lost weight and got so weak I couldn't half do my work on the farm."

Harbor Cut Out Of Solid Rock

Basin Has Area of Two and One-Half Acres

There is a natural impression that all construction engineering work of the ordinary kind in Great Britain was suspended during the war, but in fact it was by no means so. In fact, it was by no means so. In fact, it was by no means so.

LISTINGS
OF
TOWN AND
DISTRICT

Local News.

Mrs W. DeWilde and Miss E. Woyen are sojourning in Banff.

A. N. McNeill, vice principal of Ponoka school, is attending the summer school in Edmonton.

Mr and Mrs L. I. Stuart and daughter, Miss Isabel, motored to Hanna the other day, visiting with old friends.

Mrs James Erven and children left on Sunday evening on a visit to her parents at Dinmore, Sask.

Don. Defoux and Miss Alice E. Gibbard, of Edmonton, spent the week-end with friends in town.

We regret to report that our old friend, John Jenkins, of Bunker Hill, is in poor health, and confined to bed for some time past.

H. G. Taylor, auctioneer, will sell a quarter of land, advertised in this issue, at C. L. Farnum's office, on Saturday at two p.m.

The Ponoka brass band filled an engagement in Oliver on Friday, the 1st, and was a popular attraction at a large celebration. Ponoka has a band to be proud of.

The attendance at the Free Methodist Camp meeting is good, and there are a number of able speakers among the clergymen present.

Mr and Mrs Thos. Torgeson, accompanied by their father, Swan Torgeson, arrived in town from California last week, and expect to make their home here. The party motored north.

Miss O. D. Inkster, who has been on our teaching staff for the past year, left town on Friday. During her year's sojourn amongst us she made many friends who will regret to learn that she is not coming back.

A few flags appeared in town on Friday, July 1st, but otherwise the town was practically dead. There were numberless attractions at other points, and so the citizens divided their patronage. Chester would had excellent sports, and the attendance there was large. Red Deer and Wetaskiwin likewise claimed a share.

Some thirty calets from Ponoka school journeyed to Edmonton on Friday, and are forming part of the 850 contingent of northern Alberta calets who are camped in Banff Park, Edmonton. The boys will have a great outing.

Dr. and Mrs. Buhl returned last week from their visit to points in Northern Saskatchewan, and the doctor can be found at his office during the usual hours.

Major Asser, representing the Red Cross, was in town last week. It is somewhat disappointing to think that the Ponoka constituency is about the only one in Alberta that has failed to subscribe to the recent appeal. The Major is hopeful, however, that Ponoka will do something for this most deserving cause, and it is understood that several parties in town are attending to the matter.

The British American Oil Co. are opening a branch here. L. B. Danford will be their agent.

Frank Morris is having a sale on an early date. Parties desiring good stock or implements should watch for this date.

Enough signatures have been secured to assure the return of the Chautauque next year.

A car crank was lost in town on district. Finder will please return it to Herald office.

HERNERS.—On Friday, July 1st, to Mr and Mrs Clayton Hapburn, a son.

McCURDY.—On Thursday, June 30th, to Mr and Mrs A. H. McCurdy, a daughter.

SMITH.—On Friday, July 1st, to Mr and Mrs Murray Smith, a son.

Rev. D. M. Thomson, of Winnipeg, is holding a series of meetings at Concord, beginning Monday, July 4th. Mr Thomson is an able exponent of Gospel truth, and all who possibly can do so should hear him.

A meeting of Ponoka Agricultural Society directors will be held in the secretary's office on Saturday afternoon, the 16th. As it is intended to appoint committees for the coming fair, a full attendance is requested.

It will be interesting news to friends of A. M. Matheson, both in town and at Springfield, to know that he has been chosen by the U.F.A. to contest the Vegreville constituency in the present provincial contest. If energy and popularity counts for anything, Archie should make an illustrious candidate.

P. Baker met with a very serious accident on Wednesday of last week. He was engaged in clearing ground, and had a team hitched to a tree which fell on him, striking him between the shoulders. He was knocked unconscious, and has been confined to his bed since. His friends will be pleased to learn that he is improving, but of course he will be unable to take any part in the present political contest.

A large number of our Scandinavian people visited at the home of Mr and Mrs Carl Mortensen, in the Hazel Hill district on Sunday, June 28th. There must have been between 70 and 80 people present, and with a full program of outdoor sports for the younger folks and a grand reunion for the older folks, a very pleasant afternoon was spent.

Two Organmen of Ponoka will hold their annual church parade on Sunday, July 10th. All members of the choir, also members of the L.O.B.A. are requested to meet in the lodge room at 2:45 p.m. sharp. The service will be held in the Baptist church at 3:30. Special singing. Visiting members welcome.

Car tire chain lost on Sunday evening. Finder please leave same at Herald Office.

Meighen is Opposed To Renewal of Present Treaty With Japan

London.—The Anglo-Japanese treaty, Reuter's News Agency says it understands, will automatically continue in force for another year. Such continuation arises from acceptance of a ruling by Lord Bickenhead, lord high chancellor, that failing formal renegotiation, the treaty automatically continues, Reuter's Agency adds.

London.—The question of the advisability of renewing the Japanese alliance resolved itself into a different question of Premier. Right Hon. Arthur Meighen, who had circulated his case in a confidential document and who intended to speak but briefly, addressed the conference for an hour. Premier Smith, of South Africa, Hughes, of Australia, and the prime minister of New Zealand, following with speeches of equal length.

Premier Meighen, it is understood, argued against the renewal of the treaty, either in the present form or with modifications. He pointed out the Canadian objections to it which were largely in line with his arguments already advanced in these dispatches, but stated the greater part of his case upon the basis of the policy of alliances is out of tune with the times; that alliances as a means of maintaining peace have proved futile in the past, and that

the time has now come when new methods ought to be tried for the prevention of war.

Dealing with armaments, Premier Meighen drew a somber picture of the possible effects of the race in armaments between the British Empire and the United States. The great task before the nations was restoration of the world's economic stability, shattered by war; the payment of debts and the removal from the shoulders of the peoples of the present terrible burden of expenditures and taxation. To bring this about it was essential that there be limitation of armaments, something which would be achieved by a comprehensive conference of the Pacific powers. It was not, he declared, a question of desisting from arms, but rather a question of maintaining the friendship for Japan but in such a way as not to impair good relations with other nations.

Premier Hughes, who followed Mr. Meighen, strongly supported the treaty. He supported it on the grounds that it had worked well, and it afforded the best means of providing for Australia, and that it provided a restraining hand upon Japan which was the best guarantee of peace. "Do not let us sacrifice the substance for the shadow," was the burden of his argument.

Expect Cheap Coal In England Soon

London.—The immediate consequence of the miners' new agreement will be the opening of cheap coal seams which are known to exist in many coal fields. Under the settlement these will now be exploited for the benefit of both parties and it is confidently anticipated that the whole of the country between owners and men will result in such working economies that cheap coal will soon be available for the rehabilitation of industry generally.

Danger of Massacre In Asia Minor

Greeks Have Evacuated Imdid and Burned Town.

London.—The position on the Imdid Peninsula in Asia Minor, where the Greeks and Turkish nationalist forces are opposed to each other, is obscure, Cecil B. Harmsworth, secretary for foreign affairs, stated in the House of Commons. Information received, however, he added, was that the Greeks had been evacuated by their Turkish allies and that the town had been burned. It was stated that there was great panic in the district.

Mr. Harmsworth said there is danger of a considerable massacre and the Allied representatives were attempting to prevent such an occurrence.

Develop Frozen Fish Trade

Urges Campaign to Sell Canadian Fish in Great Britain.

Ottawa.—A committee to the development of the trade in Canadian frozen fish on the British market is being formed. The committee is composed of the following: Mr. J. H. Smith, president of the Canadian Fish Producers' Association; Mr. J. H. Smith, president of the Canadian Fish Producers' Association; Mr. J. H. Smith, president of the Canadian Fish Producers' Association.

This information is contained in a communication from J. Forsythe Smith, Canadian trade commissioner at Liverpool, to the weekly bulletin of the Department of Trade and Commerce. Mr. Smith advises an advertising campaign to sell Canadian frozen fish in the British Isles. He states that fish weighing from 2 to 4 pounds find the best sale.

Another Payment From Germany

Forty-Four Million Gold Marks Paid Reparations Committee.

London.—Germany has paid 44,000,000 gold marks to the reparations committee. The payment was in European currency, because of the committee's temporary decision not to require dollar payments because of the adverse effect on the German economy. This payment makes a total of about one-quarter of a billion marks Germany has handed over to the reparations committee.

Drought in Paris

Protracted Dry Spell Threatens City With Water Shortage.

Paris.—Owing to the protracted drought, Paris is threatened with a shortage of water as the rivers Seine and Marne are extremely low and are just barely supplying the 4,000,000 cubic meters of water necessary for Paris' daily consumption.

The municipal council discussed the matter and decided to ask bids for the storage of water in a billion marks. The council also decided to ask the Loire as soon as possible.

Byg Landis August 11

Bellevue and Byg of Vinny, the new Governor-General of Canada, will land at Quebec on August 11.

From the Empress of Britain according to advice received here by the Halifax Board of Trade, who had been requested through Hon. F. B. McDonald that Canada's new Governor-General make his Canadian landing at Halifax.

U.S.A. Nominates Woman Candidate

Calgary.—Mrs. Louis McKinney, former non-partisan member for Claresholm riding, was given the nomination of the U.S.A. at a convention held in the riding. She will likely be opposed by a Liberal candidate.

Oil Prices Drop

Pittsburgh.—Per-Crude oil prices were further reduced here when the principal producing agencies announced a cut of 25 cents a barrel in Pennsylvania crude, making the new price \$2.25.

Agree On Peace Pact

Washington.—A compromise draft of the Keane-Potter resolution to end the state of war between the United States and Germany and Austria, was agreed upon by Republican conferees of the Senate and House.

Spending money at home, thereby helping your own town and local merchants.

W. S. N. 133

For Development of Canada

Col. W. Grant Morden, Deputy Chairman of the London Advisory Committee of Canada Steamship Lines, who, in a recent address, urged Canadian business men to be more active in pushing Canada's trade interests.

Mennonites May Not Move

Little Prospect of Exodus From Manitoba This Year.

Winnipeg.—A local government official declared here upon his return from the Manitoba Mennonite settlement that there is little prospect of an exodus of Mennonites to Mexico or any other country from the province. He stated that less than 10,000 acres of the 100,000 held by Mennonites in Southwestern Manitoba is listed for sale, and up to the present time none of this has been sold nor prospective buyers secured.

Victory for Farmer Candidate

Medicine Hat By-Election Gives Gardiner Sweeping Majority Over Government Candidate.

Medicine Hat.—The United Farmers of Alberta forces scored a sweeping political victory in the Federal by-election here, Robert Gardiner defeating Col. Nelson Spencer, the Government candidate, by a large majority, which will probably reach the 8,000 mark when all the outlying polls are counted from. Spencer received majority in only three of four polls of the 148.

Alberta Nominations

Woman Nominated by Lacombe Farmers and Labor Men for Hockey Mountain.

Calgary.—Nominations for the provincial elections during the last few weeks included the names of many women. So long looked for time had come at last, and I was really off to the races. The women were nominated by the Lacombe Farmers and Labor Men for Hockey Mountain.

Good Crops Generally

Intense Heat Has Forcing Effect On Crops In Some Districts.

Winnipeg.—The very intense heat which has prevailed over the last few days in the prairie provinces in the past week has had a forcing effect on the crops in some districts. The wheat is now in the early stages of ripening and the corn is well advanced. The farmers are generally pleased with the crops.

British Government Grants Huge Sum For Aid of Miners

London.—The House of Commons has approved the plan submitted by Mr. Lloyd George, the prime minister, for a grant of £10,000,000 to the coal miners in pursuance of the strike settlement programme, the money to be applied in helping the men over the next few months, during the process of wage reduction.

The passage of this legislation completes the action necessary to make effective the settlement of the coal strike reached last week.

Frank Hughes, secretary of the Miners' Union, issued an official statement in behalf of the Miners' Federation this evening to the effect that there had been an overwhelming vote in the districts in favor of the strike action miners accepting the terms of the offer.

The men will return to work without delay, the statement said.

Los Angeles.—Dr. Harry Henshaw, noted electrical scientist, known internationally as the father of the dry cell, died at his home here July 10.

He had a great knowledge of the future of the world, it is believed.

FRANCE IS GRATEFUL TO CANADA FOR HELP RENDERED DURING WAR

Ottawa.—Marcel Fayolle, in the name of France, presented to the Canadian people Rodin's last, La France Reconnaitre (grateful France).

The ceremony took place in the railway committee room of the House of Commons and was presided by the speaker of the House, Hon. C. J. Doherty, acting prime minister, and Hon. W. L. Mackenzie King, leader of the opposition.

The object of the French mission, the marshal explained, was to express the gratitude of France for the great part Canada had played in the war. The expression of thanks, he said, was not merely conveyed on the part of the French government, but also on the part of the French people. Member of parliament and artists, the civilians of France and France's women joined in voicing their affectionate gratitude.

It was at Langemere, said Marshal Fayolle, that the Canadians had first done the French any signal service. Disregarding the miles of civilized warfare, the Germans had added to their gunfire most unexpectedly a cloud of gas which had killed French soldiers were blinded, injured.

It was at Langemere, said Marshal Fayolle, that the Canadians had first done the French any signal service. Disregarding the miles of civilized warfare, the Germans had added to their gunfire most unexpectedly a cloud of gas which had killed French soldiers were blinded, injured.

Men in Montreal Becoming Desperate

Unemployed Threaten Violence If Not Given Work.

Montreal.—Over 600 men applied for work on the site of the new \$9,000,000 Royal Hotel. Many of these unemployed were literally desperate, the contractor in some instances advancing part of wages to his employees. One man threatened to threaten bodily harm to the contractor if he did not take him on.

Turkish Nationalists Advance

Constantinople.—The Greeks have evacuated Imdid in Asia Minor, the Turkish Nationalists, under Mustafa Kemal Pasha, now have a clear road to Constantinople. The Nationalists are not expected to respect the neutral zone prescribed by the allied commission.

Settlement Reached In British Coal Miners' Strike

Hereby That New Relations Will Now Be Instituted Between Capital and Labor.

London.—The prolonged stoppage in the coal industry ends by a settlement reached when the government started to move in force to suppress the strike. The settlement was reached after the strike had lasted for three months, because of necessary wage reductions, thereby commencing the one condition required by the miners in the settlement reached between the miners and the industry.

Under the terms of the new arrangement, a wage having been established for the next eighteen months, whereby the miners receive 20 per cent. above the pre-war scale of wages, with an additional share of profits on an agreed percentage basis which will be regulated by the creation of a national board and district boards.

Asker

Asker placed on Thursday, July 7, Miss Forsythe, a successful term of school last Thursday, leaving for Stoney Plain that same evening to spend a week with old relatives before going home to Balcarres, Sask., for the holidays. The Misses Ruth, Kathleen, and Ruby Forsythe are enjoying their holiday though anxiously waiting for results of the examinations.

Mrs. S. Walter has been undergoing a painful siege with her feet recently, due to an ulcerated tooth. Mr. and Mrs. R. Ravensborg let

last Friday to make their home permanently at the old home in Norway. A number of friends and relatives accompanied them to the train, and though both to see them depart their best wishes go with them for a happy and healthy future in their home over the seas.

While admission to the grounds will be free, \$1.00 will be charged for the dance and \$2.00 for supper on the evening of the picnic, July 19.

Miss Marjorie Gordon is visiting at Battle Lake Ranch.

Hail Adjusting Done at Home

INSURE YOUR CROPS WITH A LOCAL ADJUSTOR

BY INSURING your crops early, you get the full benefit of your premium, and it will cost you no more.

It is of vital importance that when you have a loss it is adjusted at the earliest possible moment, and by placing your insurance in the hands of a local adjustor, I will endeavor to give you a fair and impartial adjustment, as I will do the adjusting for them at this point.

I have other Companies that are A-1, and with all times, give the quickest service possible.

OUR RATES FOR 1921 ARE 8 Per Cent. EAST OF THE 50th P.M.

Why The Farmers of Alberta SHOULD SUPPORT The Stewart Government

THE STEWART GOVERNMENT has initiated more legislation for the benefit of the farmers and the rural portions of the province than any other government in the Dominion of Canada. Premier Stewart himself is a practical farmer, and understands the farmers' view point. Even A. F. Ewing, leader of one fraction of the opposition, has no serious criticism to make of the general record of the government.

The Stewart Government believes that the development of the province is inseparably connected with the agricultural, live stock, and dairy interests, and accordingly has endeavored to assist them to the full extent of its power. The Live Stock Encouragement Act is a typical example, loans to the amount of \$1,723,916.00 having been made to farmers for the purchase of live stock for breeding purposes. Approximately 25,880 cattle have already been purchased in this way.

And then think of all the other valuable activities of the Department of Agriculture—six of the finest agricultural schools in the Dominion; the short courses in agriculture and institute meetings; grants to fairs and exhibitions amounting to sixty per cent. of the prize money; control measures for dealing with crop pests; assistance to farmers in the solution of

their problems by agricultural representative stations throughout the province; the work for the benefit of farm women done through the women's institutes; the splendid aid to farmers in connection with their marketing problems; and the Hon. Duncan Marshall's magnificent fight for the removal of the embargo.

The Municipal Hospitals Act has been of great assistance in solving the question of medical attention in the sparsely populated parts of the province. Last year eight hospitals were in operation, and a number of others are in contemplation. The furnishing of nursing and medical service to the frontiers of settlement is a question that has received every possible attention from the government. District nurses are sent out to isolated parts of the province, where the services of a doctor are not available. The government also pays half the cost of a public health nurse if two or three municipalities, in combination, will pay the other half, and this opportunity is being taken advantage of to a large extent.

The Stewart Administration has done everything in its power to help the farmers and the residents of the rural parts of the province, and it confidently appeals for their support.

STEWART GOVERNMENT

Do We Take Small Accounts?

We do more than that. We invite them—welcome them—and take good care of them. If you wish to open a Savings Account for any particular purpose—or wish to teach the children to save by having an account in each child's name—do not hesitate to do so because the amount to be deposited will be small. \$1. is sufficient to open a Savings Account, and deposits of \$1. are always welcome.
